

Value+ Protector II Product Changes – Effective May 15, 2021

We are repricing Value+ Protector II, effective May 15, 2021, due to the impacts of low interest rate and spread, especially on younger ages. In addition, the Cash Value Accumulation Test (CVAT) interest rate is updated to meet the new IRC 7702 requirements.

As a result of the change:

- Premiums will increase slightly by 1-3%
- Primary guarantees for younger insureds (45 and under) will drop below age 90, while older ages can still be guaranteed to and around 90
- No or minimal change to cash value and target premium
- No changes to cap, par and max illustrated rates

Value+ Protector II – Fast approvals with expanded Non-Med underwriting

- Quick access to coverage through **non-medical underwriting** for hassle-free buying experience. No labs, no exams are required for qualifying clients:
 - Ages 0-50 (18-50 in New York)
 - Face amounts \$50,00-\$1,000,000
 - UW classes Standard to Preferred Plus Non-Tobacco, Standard to Preferred Tobacco
- As a reminder, VPP II has **competitive premium, strong guarantees, cash value**, and choices with unique **volatility control** indices* like the ML Strategic Balanced Index[®] (MLSB) and the PIMCO Global Optima Index[®]
- Ability to **customize with a menu of riders such as Accelerated Access Solution[®] chronic illness rider and others** to protect clients from the unexpected and tailor to different financial goals

State Availability

All states, including NY

- To receive the **old rates** applications must be received on or before **May 14, 2021**.
- Reissue requests **will not** be honored.

An Accelerated Death Benefit Rider (ABR) is not a replacement for Long Term Care Insurance (LTCI). It is a life insurance benefit that gives you the option to accelerate some of the death benefit in the event the insured meets the criteria for a qualifying event described in the policy. This ABR pays proceeds that are intended to qualify for favorable tax treatment under section 101(g) of the Internal Revenue Code. The federal, state, or local tax consequences resulting from payment of an ABR will depend on the specific facts and circumstances, and consequently advice and guidance should be obtained from a personal tax advisor prior to the receipt of any payments. ABR payments may affect eligibility for, or amounts of, Medicaid or other benefits provided by federal, state, or local government. Death benefits and policy values, such as cash values, premium payments and cost of insurance charges if applicable, will be reduced if an ABR payment is made. ABR payments may be limited by the contract or by outstanding policy loans.

For more information about ABR's please visit RetireStronger.com.
